

Presentation Award (Poster presentation)

Number	Name	affiliation	Title
Physics			
PP-2	Mr. Romel Mark Irabon	Mindanao State University, Iligan Institute of Technology	Prediction and investigation of metal oxides optimized for hydrogen storage via machine learning assisted density functional theory
Chemistry			
CP-7	Mr. Hiroya Suzuki	Niigata University	Tin(IV) complexes of 5,10,15,20-tetraaryl-5,15-diazaporphyrinoids as a platform for evaluating the antiaromaticity
CP-10	Mr. Tamaki Kobayashi	Niigata University	Development of inhibitors for the disease-associated enzyme Scp1 using antibody mimetic proteins
Biology			
BP-04	Dr. Kuang-Yueh Chen	National Kaohsiung Normal University	Impact of geographical and climatic factors on melioidosis hotspots in southern Taiwan
BP-07	Ms. Ayaka Kawahara	Niigata University	Screening and analysis of compounds that inhibit pollen tube growth
BP-10	Mr. Tomonori Kosakai	Niigata University	Analysis of mouse laminin-111 O-linked glycans
BP-18	Mr. Atsushi Kato	Niigata University	Exploration of interaction sites on RNA polymerase with a dormancy regulator in <i>Mycobacterium tuberculosis</i>
Earth and Environmental Sciences			
EP-01	Mr. Shu Murayama	Niigata University	Potential agricultural uses of plant-plant communication in maize cultivation
